

Tuesday!

PCDART and Your FARM Program Evaluation

In a recent article in Hoard's Dairyman, Associate Editor Katelyn Allen reviews resources to help you prepare for a FARM program evaluation (Read the article with this [link](#).)

The National Dairy FARM (Farmers Assuring Responsible Management) Program was developed to help standardize animal care across the industry. FARM is the industry's proactive response to consumers' animal welfare concerns. The FARM Program 1) details animal care guidelines, 2) evaluates farmers once every three years, and 3) ensures third-party verification (nationaldairyfarm.com).

HOARD'S DAIRYMAN

How do I prepare for a FARM evaluation?

BY KATELYN ALLEN, ASSOCIATE EDITOR

If your FARM evaluation is on the horizon, PCDART can help! In the linked video, DRMS Tech Support Analyst Dr. Kas Inga-wa demonstrates how, with proper data entry, all the information needed for a FARM Program evaluation can be pulled directly from PCDART.

The next series of Tips will explain in detail how to use PCDART's Protocols and Chores feature to collect the specific data needed for a FARM evaluation.
